## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities: the sentence "Said object is achieved by the features indicated in claim 1" on page 2, line 9 is improperly referred to the claim, because the specification has to be clear and complete in itself. The specification should not be referred to the claim, which relies on the specification to define the subject matter and the scope of the invention.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Geysel (4,584,046).

Geysel discloses an apparatus for applying a drinking straw to a receiving surface of a stand up bag comprising: transfer means (figure 9) which rotates a transfer drum 20, stand up bag 12, drinking straw 11, and conveying surface 13; the transfer means is arranged so that the drinking straw while being handed over encloses an acute angle  $\theta$  (marked as  $\theta$  by the examiner on figure 9) with the conveying surface.

The angle  $\theta$  corresponds to the angle forms by the stand up bag receiving surface and the opposite outer surface of the bag lies on the conveying surface.

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh K Truong whose telephone number is (703) 605-0423. The examiner can normally be reached on Mon-Thurs from 8:00 AM to 6:30 PM.
